

## CERTIFICATE OF ROHS COMPLIANCE

This document certifies that Calex Converters ordered and processed with suffix “(RoHS)” as part of the identifying part number are in compliance with the E.U. Directive 2002/95/EC Restriction of Hazardous Substances (RoHS Directives). The DC/DC converter(s) mentioned above are deemed to be compliant in accordance with the maximum concentration values issued by the European Union as shown below:

<b>Substance</b>	<b>Maximum Concentration Value</b>
Lead	< 0.1%
Mercury	< 0.1%
Hexavalent Chromium	< 0.1%
Polybrominated Biphenyls	< 0.1%
Polybrominated diphenyl ethers	< 0.1%
Cadmium	< 0.01%

This declaration is based on available sources from raw material suppliers or quantitative analytical data, where available. Prescribed components are not knowingly present in the supplied raw materials, except as adventitious trace impurities, nor are they added intentionally to the formulation of the above products.

The model number for Calex DC/DC Converters as displayed on the label and website/catalog will not change. The packing slip, however, will identify the part with the suffix “(RoHS)” after the model number. The label for RoHS compliant units will also display the following symbol:

Issuer: Calex Mfg. Co., Inc  
Address: 2401 Stanwell Drive, Concord, California 94520, USA

Authorized signatory for Calex Mfg. Co., Inc.:

Susan Benker, Quality Assurance

Date: August 8, 2011
